AGV Onboard Software Engineer Position

Dear Hiring Manager,

I am writing to express my interest in the AGV Onboard Software Engineer position at Dematic. My experience spans software development in C, C++, Python, and other languages, with a strong record of integrating software and hardware in both enterprise and embedded environments.

I have consistently adapted to new technologies and project requirements, learning quickly and applying new tools as needed. This adaptability will allow me to bridge any knowledge gaps, including FBD, structured text, and AGV-specific hardware.

Key strengths I bring include:

- Software and hardware integration, troubleshooting, and testing

- Writing maintainable code and collaborating with diverse teams

- Rapidly acquiring new technical skills

I am drawn to Dematic's commitment to technical excellence and career development. I look forward to contributing to your team and expanding my expertise in AGV systems.

Thank you for your consideration.

Sincerely,

Marvin Kassabian
